

More significant awards:

1996, Medal; Red Danice hrvatske s likom Ruđer Bošković- for the contribution in science,

1998; Medal of Faculty of mechanical Engineering and Naval Architecture, University of Zagreb

1998, Medal Božena Božiček, Croatian NDT Society

Born on February 13. 1939 in Sušak, Croatia. From 1941 she live in Zagreb. Graduated in 1963 in Physics at University of Zagreb. Acquiring the differences to Mechanical Engineering study she get the Master's Degree (1970) and D.Sc.(1982) at the Faculty of Mechanical Engineering and Naval Architecture, University of Zagreb. At this Faculty she has studied, worked and come along to full professor. Retired in 2008.

She is the member of Academia NDT International, Brescia.

Married, two kids; Igor and Tamara; 4 grandchildren: Stipan, Barbara, Lovro and Tess.

Teaching activities: She initiated lecturing in Quality system and Quality management including in university and higher education curricula the subjects related to Quality. The main topics: NDT and Technical diagnostic, Quality control, Quality assurance and Quality Management.

The field of research: Quality system, the implementation of the NDT in production and in service inspection of the materials, components and constructions, the reliability of the QA and QM processes. R&D, the methods and technology of mine detection and all threats in civil environment. She has published two books (Ultrasonic testing, Liquid penetrant testing), more than 100 papers including experts publications and participated as an invited lecturer in many international conferences.

The most important recent positions: The head of the NDT laboratory, Vice Dean for science and industry cooperation (1990-1994) and The Dean (1994-1996) at the Mechanical Engineering Faculty, University of Zagreb. She initiated, organized and established the Department of Quality at the Faculty of Mechanical Engineering, being the head (1997-2003). From 1996 she had been the Director of Centre for Technology Transfer, CTT, that works on projects related to University and Industry cooperation.

She was one of the founders and the first president of the Croatian laboratory association, CROLAB, from 1999, and a member of many scientific and expert associations in country and wider. She is the President of Croatian Non Destructive Testing Society, CrSNDT, from 1989, the Director in the Board of Directors of EFNDT-a, the founder and convener of the EFNDT WG5 PSSndtT (Public Security and Safety NDT Technology) until 2009, and the President of European NDT Federation from 2009-2012. The member of many Program committees as: 15 World NDT Conference, Rome 2000, 8th European NDT Conference, Barcelona 2002 and 9th European NDT Conference, Berlin 2006 and a10th. European NDT Conference in Moscow, 2010.

The most important positions now:

In Croatia:

The president of Deans Club

The President of Croatian Engineering association, HIS,

The President of the CrSNDT

In Europe:

The member of EFNDT BoD, as a past president, Brussels,

In the world:

The member of Academia NDT International Council, Brescia,

The European representative in ICNDT (International NDT Federation), Vienna.
